THIRD TERM FOR CONTEMPT

Supervisor Boxton's Wife Testified That Her Husband Gave Her The \$5,000 Bribery Money.

San Francisco, July 24.-Contrary to expectations, the prosecution did not finish today its case against Louis Glass, charged with the bribery of supervisors. But shortly before adjournment Asst. Dist. Atty. Hency stated to the court that he has but three more witnesses to call, and that their direct examination will not consume, in all, more than one hour. Allowing the rest examination will not consume, in all, more than one hour. Allowing the rest of the morning session for cross-examination, it is thought that Atty. Delmas will find the field clear for his opening statement to the jury not later than 2 o'clock tomorrow afterneon. The most interesting witness today, from the viewpoint of all audience that contained more than a score of women, was Mrs. Annie Boxton, whose temporary intembency of the mayor's chair under the domination of the "big stick" was terminated recently by the succession of Dr. Edward R. Taylor, Mrs. Boxton testified that the \$5.000 which her husband confessed was accepted as a bride from T. V. Halsey by him was brought home, counted and given to her. Mrs. Boxton, whose handsome a stylish appearance won for her many curious stares, was on the stand but a few minutes, and escaped the ordeal of cross-examination.

Other witnesses of the day were Supervisor Charles Boxton, recalled; George A. Bordwell, auditor of the First National bank; Emile J. Zimmer, second vice president of the Pacific States Telephone and Telegraph company, who again refused to become a witness for the prosecution, and was by Judge Lawler, fined \$590 and sent to jail for five days for this, his third, contempt of court; F. W. Eaton, secretary-treasurer of the telephone company, recalled; William J. Kennedy, assistant treasurer of the same corporssistant treasurer of the same corpor assistant treasurer of the same corporation, whose apparent unwillingness to answer questions fretted Heney, and led to acrimonious remarks between him and Delmas; John Krouse, recalled; Herbert W. Smith, stenographer of Vice President Glass in the offices of the Pacific States company, and Samuel A. Monsarrat, bookkeeper in the cashier's department of that concern.

One of the first witnesses to be called by the defense, according to a casual courtroom remark by Delmas, will be Rudolph Spreckels, financial guarantor of and one of the three most active members of the bribery-graft

LURE OF AMERICA.

Buda Pest, July 24.-The lure of the United States as a land of opportunity and wealth to the people of Hungry has brought out a curious state of affairs in the little village of Krisova, near Lugos, that at the last census had a bopulation of 3,500 souls. One by one the male residents of Krisova heard the call across the water, and they emigrated in batches until such time as the mayor was the only adult male to remain in the village. Finnaly he also succumbed to the reports of good wages and golden chances in America sent back by his fellow townsmen, and, packing his trunk, he made his way to the emigrant ship at Ftume.

As a result of this exodus of males the women of Kirosova have just elected a young woman to the position of mayor, and other female residents have been elected to fill the remainder of the municipal offices. The statutes in Hungary provide that no female shall hold public office, and according to the letter of the law the presence of the women in office is illegal. in the little village of Krisova, near

New York, July 24.-Almost at the New York, July 24.—Almost at the moment that his second victim breathed his last, Frank H. Warne r tonight awoke to consciousness and a realization of his tragic acts of yesterday. Warner, formerly a prosperous hatter, shot and killed Esther C. Wilson let into the back of his intimate friend, John Wilson, a wealthy hatter. Wilson died at St. Vincent hospital tonight, and as the news of his death reached Bellevue hospital, where Warner is a prisoner, the latter regained his senses. Warner was knocked down and badly injured by the crowd that captured him, and he had since been in a comatose condition.

Police Commissioner Bingham today suspended three policemen who failed to arrest Warner after he had killed Miss Norling.

Prof. Newcomb occupied a chair on the piattorm after deavering his address on the economic need. the latter persisted and finally had his way.

"Air. Chairman," he said, "I think that too much of the time of this conference has been given to listening to long, tire-some essays. I believe we would do much better to hear discussion from practical men like Mr. Renner."

Craig's remarks were greeted with hisses and cries of "Call him to order!"

Prof. Newcomb was quick to catch the personal tone in Craig's remarks. He arose hastily, shook hands with the few men on the platform and walked out of the convention.

Temporary Chairman Scott called Craig to order and at the same time paid a glowing tribute to Dr. Newcomb.

TROUBLE IN INDIA.

Lord Curzon Says That it is Only Skin Deep.

London, July 24.—Lord Curzon, chan-cellor of Oxford university, speaking at a banquet given in his honor tonight cellor of Oxford university, speaking at a banquet given in his honor tonight by the Grocers company, after expressing the opinion that the trouble in India is only skin deep, strongly criticized what he descirbed as Great Britain's "unscientific method of administering the empire." He said that no country in the world had such a reserve of experience and authority in the art of civil government and made such little use of it. The colonial office, he said, was made up of permanent officials, many of whom had never set eyes on the colonies they administered, and he asked why there should not be an imperial council of some kind to assist in their administration. He apologized for speaking in behalf of the great unemployed class to which he belonged, but expressed his thanks for the opportunity, saying that although he was unemployed he was not altogether extinguished.

Among the guests at the banquet were the American ambassador, Whitelaw Reid and the secretary of the American embassy, J. Ridge Carter.

AMERICA LEADING AT THE HAGUE CONFERENCE

The Hague, July 24.—Thus far the United States has contributed more than any other country to the peace conference. As was expected, the American proposal for the collection of contractural debts will be adopted almost unanimously on July 27, only a few countries making reservations, while the proposition regarding the permanency of the arbitration court, the most important step of the conference, will be accepted with amendments, to which, however, the American delegates will offer no objections. Another American proposition, that relating to general arbitration, is already meeting with some opposition, which is offered as not against the principle, but because of the difficulty of carrying the plans as proposed.

The British delegation, however, has received instructions to support both the permanent court and the general arbitration propositions.

Still another American proposition, that relating to a periodical conference, will not be presented until the end of the conference, in order to avoid interference with the work already under discussion.

SET A DEATH TRAP.

Joseph Genneti Confesses to Killing His Cousin and Another Man.

His Cousin and Another Man.

Belleville, Ill., July 24.—Joseph Genneti, in jail here, confessed today to setting a death trap in the Consolidated coal mine at Cillinsville, Ill., July 1. The trap killed his cousin, Rugust Genneti, and also killed Louis Cologna. He implicates another coal miner who is not under arrest.

The motive for the crime, according to the confession, was August's objection to his sister's, Kate Kenneti, marriage to Joseph. The authorities are skeptical about Genneti's statement that he had an accomplice. All the evidence which has been obtained has pointed to Genneti alone.

CARMEN'S STRIKE SETTLED.

Rock Island, Ill., July 24.—The strike of the carmen employed in the various shops of the Rock Island system was settled today and the men have returned to work. Washington, July 24.—The detailed report of the operations of the isthmian canal commission on the isthmian for June last was received today.

The excavation in the Culebra division was 624,586 cubic yards, against 669,365 cubic yards during May, and is more than three times the amount taken out in June, 1906. The report says that with 19,000 yards per shovel as the maximum output during the dry season, 16,000 yards per shovel cannot be considered a serious falling off when

The excavation at Gatun amounted to 75,013 cubic yards, and in the canal prism, 81.352 cubic yards was dredged.

The chief sanitary officer reports that out of 4,300 white American employes there were only four deaths during the month, and that out of about 65,000 whites other than Americans there were but 15 deaths. Out of about 29,000 colored employes there were 72 deaths, making a total of 91 deaths in June, against 96 in May. Taking all deaths of employes together, only 12 deaths in June were due to what are considered climatic diseases—malaria and dysentery—and none of these occurred among the white American employes.
